Fish category pulled up the overall monthly inflation the most by contributing 93% to the inflation. Additionally food & beverages and housing, water, electricity, gas & other fuels categories also pulled up the overall inflation during the month. Whereas, furnishing, household equipment & routine maintenance, miscellaneous goods & services and transport categories pull down the overall inflation.

The items which contributed most to the inflation of housing, water, electricity, gas & other fuels category were electricity charges. Electricity prices increased by 5% due to increase in fuel charges applied to electricity.

Furnishing, household equipment & routine maintenance category pulled down the monthly inflation by 2% in June 2012. Bedroom set prices decreased by 17% when compared to May 2012. Additionally both fan and sofa set prices also declined by 14% in June 2012. This is due to the fact that in every year, during ramazan, furnitures are on sale which lower the prices compared to the previous month.

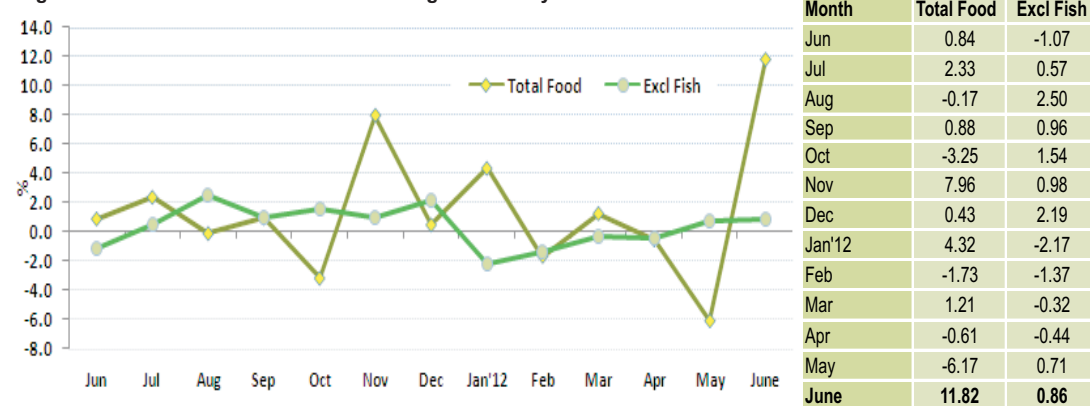

## Monthly inflation rate of food and beverages category

The monthly inflation rate for the food & beverages category is 11.82%. Food excluding fish category showed an inflation of 0.86%

Additionally fresh tomato prices increased by 27% while both onion and githeyo mirus (Maldivian chilli) prices increased by 22%. During the month cabbage prices and egg prices increased by 17% and 12% respectively. This is due to the fact that in ramazan there is high demand for the food items which drives an increase in prices. However, items such as canned mixed fruits, garlic, cucumber, carrot, ginger and frozen chicken prices decreased during the month.

The items which contributed most to the fish category were other tuna for which price rose by 85%. Additionally skipjack tuna and reef fish prices went up by 74% and 35% respectively. Smoked fish and canned fish also contributed to this hike. This increase in fish prices was the major factor contributing to overall monthly inflation.
