CONSUMER PRICE INDEX BY SELECTED MAJOR CATEGORIES OF REPUBLIC JANUARY 2020-DECEMBER 2021

TOBACCO AND ARACANUT

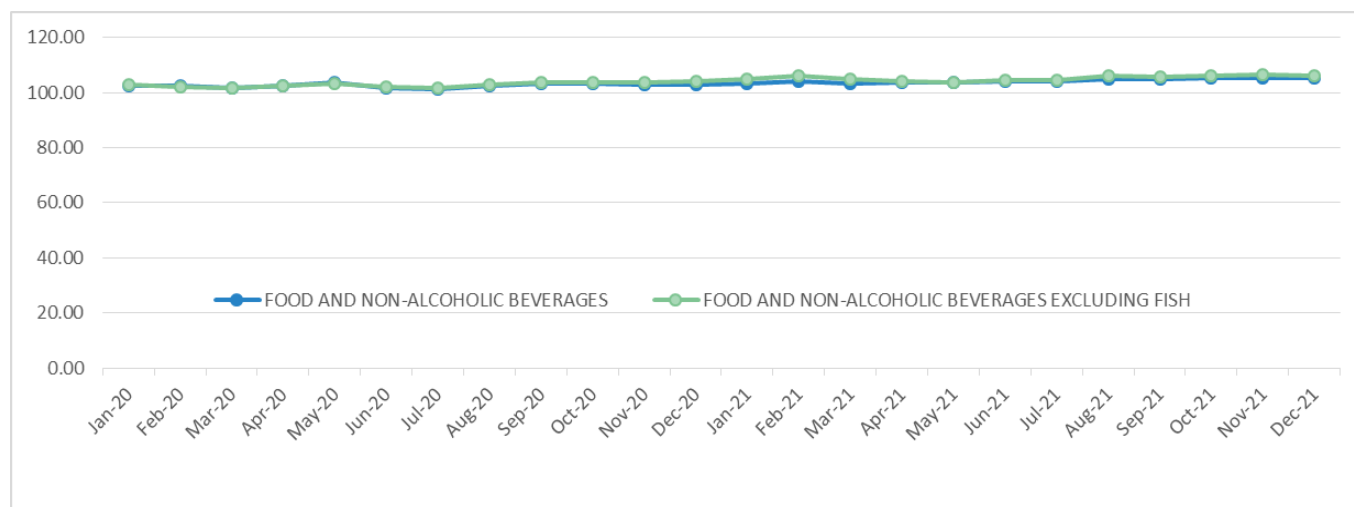

- The Tobacco and Aracanut group illustrated a constant index from January 2020 onwards until July 2020. However, from July 2020 there was a spike in prices (+24.54%). There was a gradual rise from that point till December 2021 from this category. This was mainly due to the high import duty rates.
- Price of cigarettes under Tobacco group increased in Aug 2020 by +30.16% due to the increase in import duty rates. Moreover in Aug 2020, Raw aracanut price increased by +6.19% due to the difficulty in its availability. Moreover, the gradual rise seen from this period till December 2021 is also due to the rise in price of Supari as there were difficulties in the availability of Supari throughout the year. In Overall the index of Tobacco and Aracanut group increased vastly due to the above mentioned reasons.

FOOD AND NON-ALCOHOLIC BEVERAGES

- The Food and Non-Alcoholic beverages group illustrated an increased inflation rate of (+1.80%) for the year 2021. Price was mainly increased from Fruits and Vegetables. The main contributors to this rise was the increase in price of carrot (+28.31%), oranges (11.43%), young coconut (+15.69%), papaya (+22.22%), mango (+8.37%), butter (+6.18%), cooking oil (+6.73%), eggs (+6.28%), flavored milk packet (+9.52%), and noodles (+6.58%). The major reason for the increase in price of Food and Non-Alcoholic beverages group was due to the fluctuations in dollar rate.
- This rise was partially offset by the decrease in price of onion (-10.32%), garlic (-3.61%), pumpkin (-12.88%), githeyo mirus (-13.68%) and lettuce (-8.02%).

CONSUMER PRICE INDEX BY SELECTED MAJOR CATEGORIES OF REPUBLIC JANUARY 2020-DECEMBER 2021

HOUSING, WATER, ELECTRICITY, GAS AND OTHER FUELS

- The index for The Housing, water, electricity, gas and other fuels group remained almost same from January 2020 to March 2020. However, compared to March 2020 the whole category had a steep fall in prices in April 2020 by -13.40%. Price again returned to normal rate until June 2021. A major change of (10.46%) was seen from this category from June 2021 to July 2021. After that, till the end of the year a consistent change was seen.
- The main contributors for the decline as shown in the graph from April to June 2020 and June 2021 was due to the decrease in prices in Water supply and miscellaneous services relating to the dwelling and Electricity, gas and other fuels. The reduction in price of Water supply and miscellaneous services relating to the dwelling and Electricity, gas was a result of governments decision to give a discount in the bill of water (by 30%) and electricity (by 40%) to mitigate the effect of Covid 19. This change remained constant till June 2020 and thereafter, when the covid-relief discount rates were removed the price returned to normal rate in July 2021. Again, in June 2021 the same subsidy was given by the government thus a steep fall can be seen until June 2021.

CONSUMER PRICE INDEX BY SELECTED MAJOR CATEGORIES OF REPUBLIC JANUARY 2020-DECEMBER 2021

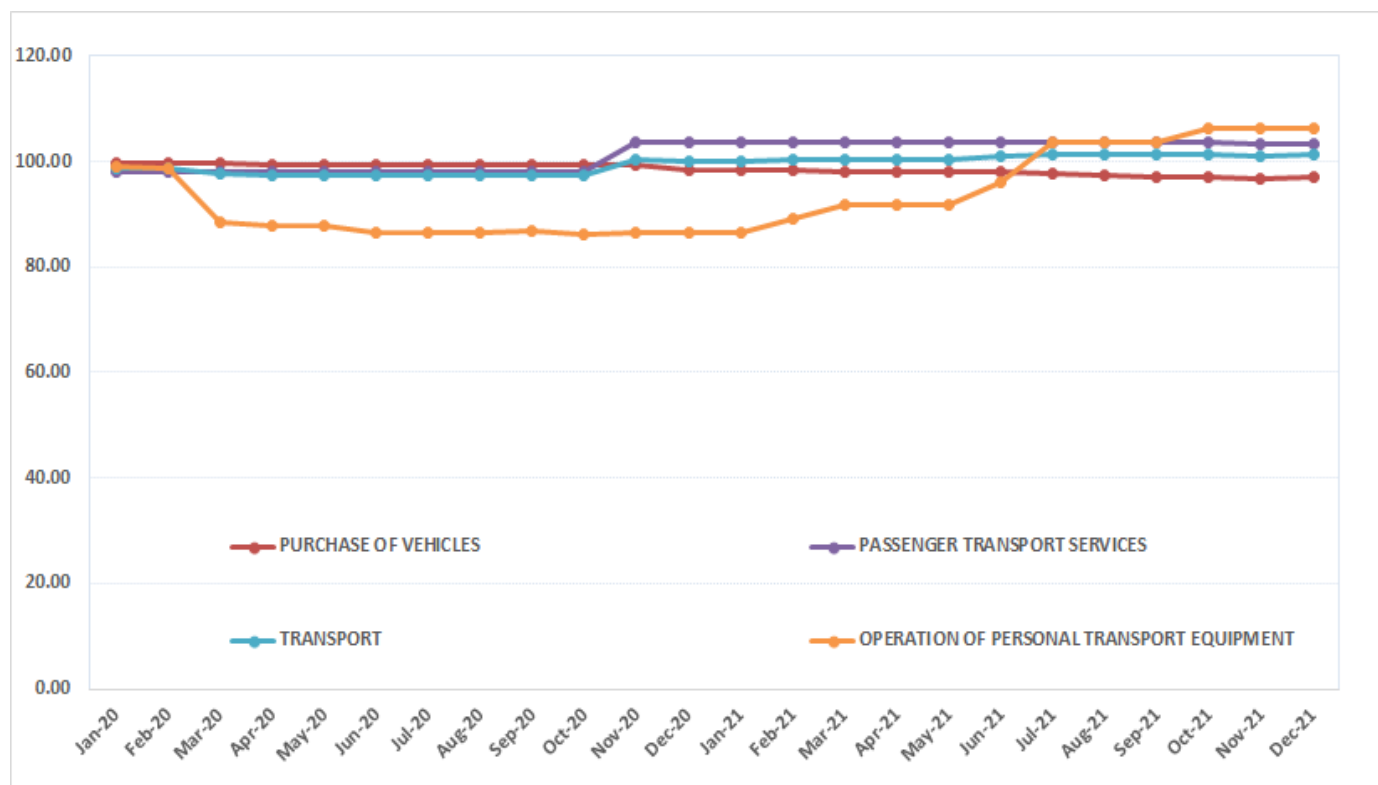

INFORMATION AND COMMUNICATION

- The index for the Information and Communication category group illustrated continuous changes from January 2020. Due to improvement in methodology, the index reflected the dynamic nature of prices in information and communication. One major significant fall in price was from Feb to March 2021 (-8.15%). Another steep fall can be seen from May to June 2021. This was mainly due to the government intervention to the internet prices. Mainly, a falling trend can be seen from the graph throughout the year.
- The main contributor to the major fall in June 2021 was the decrease in internet prices as government reduces the prices. Gradual changes were reflected throughout 2021 including the slight increase prices in July 2020 (+6.27%) as the free data and Covid 19 relief was discontinued. As part of their policy to make broadband and mobile internet more affordable in the coming months, Government of Maldives reduced the internet prices in June 2021 and this effect is reflected in the graph during that period. This change was brought to the fixed broadband internet packages. Later, in September 2021, Mobile internet prices were reduced again decreasing the index as illustrated by the graph.

CONSUMER PRICE INDEX BY SELECTED MAJOR CATEGORIES OF REPUBLIC JANUARY 2020-DECEMBER 2021

TRANSPORT

- The index for Transport group category illustrated a downward slope from March 2020. This was due to the changes in petrol prices. From November 2020, an increase can be seen from the prices of Passenger transport service. The main contributors for the fall was Operation of personal transport equipment, Purchase of vehicles and Passenger transport service.
- The Operation of personal transport equipment had a steep drop in the index and the reason for this was the decline of petrol price in March 2020 by -14.01%. It kept on declining until April 2021 and thereafter world petrol prices started rising. As a result a continuous increase can be seen even till the year end. The increase in passenger transport services by +22.14% in November 2020 is due to the increase in international airfare for some destinations. This was due to airlines discontinuing the discount rates for international airfare given due to Covid 19. This remained unchanged till December 2021 as the situation was still the same.
